

Technology Specialist

Overview:

The NYC Leadership Academy (NYCLA) is a nationally-recognized 501(c)(3) nonprofit organization with a clear mission: We build the capacity of educational leaders, at every level of the system, to confront inequities and create the conditions necessary for all students to thrive. We support school and district leaders in using an equity lens to implement a vision, build strong school and district culture, set clear and high expectations, and develop and lead principals and teachers who ensure high-quality instruction and the opportunity for all students to be successful. For us, equity means that children and adults should receive what they each need to achieve their potential, and their race, culture and other characteristics of their identity should not prevent access to opportunities and resources.

Our leadership development, coaching, and support build the capacity of individuals and systems, helping prevent leader turnover and create a bench of strong leaders. In the last 15 years, we have directly supported more than 4,200 leaders in 185 school systems across 33 states who are transforming the learning of 5.5 million students.

Job Summary and Key Attributes:

Assisting and reporting to the Director of IT, the Technology Specialist – will act as a first responder for on-site and remote employees in our consulting organization, supporting Desktop, Mobile Device and Web Conferences while assisting the IT Director with network troubleshooting and handling a variety of technical issues.
